

# CONSTRUCTION SERVICES

## Mission Statement

To enhance and improve the quality of life in the City of Sarasota by effectively managing the use of the City's right-of-way, and by planning, designing and constructing both new infrastructure and the improvements to existing infrastructure through citizen engagement, cost effective and methods of construction designed to maximize sustainability of the infrastructure, and insuring compliance with Local, State and Federal regulations.

## Description of Operations

The Construction Services Division consists of two sections within the division. The General Engineering section is responsible for regulating the use of the City's right-of-way through permitting and inspection. This section also provides engineering assistance to City departments, additional permitting and inspection services, mapping, design surveying and the establishment and maintenance of design criteria.

The Capital Projects section is responsible for the oversight of all municipal construction activities identified in the City's Capital Improvement Program and ongoing infrastructure maintenance programs. This section also performs other related services which include planning and design work, construction management, grants, development review, right-of-way oversight, regulatory reporting and Citizen Engagement through charrettes and workshops.
