

PALM, MAIN & FIVE POINTS ROUNDABOUT

PROJECT UPDATE

June 11, 2010

All lanes on Main Street are open for traffic. No lane closures on Main Street are anticipated until July 5, 2010 with the closure of Five Points Roundabout construction.

Week of June 14, 2010

On Main Street a new service line for Epicure will be directionally bored. No lane closures south of Palm Avenue are anticipated. Two to four parking spots will be affected during the pipe placement. Notification and coordination of the tie-in to Epicure will be made. After the certification process is complete the water connections will be made. The Zenith building will be the only one affected with a water shut down. Notification will be made 72 hours before shut down.

Week of June 21

The contractor will be working off site preassembling materials for the waterline connection at Five Points Roundabout.
